

**6.      Accidental Release Measures**

Personal precautions:            Wear disposable gloves, eye protection, dust mask and protective clothing.

Spill:                                    Sweep or vacuum material and place in a designated waste container. Ventilate and use a water rinse to clean the spill site after material pickup is complete.

---

**7.      Handling and Storage**

Handling:                            Avoid contact with eyes, skin and clothing. Prevent inhalation of dust.

Storage:                                Keep container tightly closed. Store in a well ventilated area at 10 to 30°C.

---

**8.      Exposure Controls and Personal Protection**

Engineering controls:            Engineering methods to prevent control or exposure to dust are preferred. Methods include process or personnel enclosure, mechanical ventilation, and control of process conditions.

Protective measures > Hands:    Protective disposable gloves.

Protective measures > Eyes:     Chemical safety glasses or goggles.

Protective measures > Body:     Laboratory coat.

Protective measures > Inhalation: Dust mask.

---

**9.      Physical and Chemical Properties**

Physical form:                      Powder.

Colour:                                 Pink.

pH (at 48.5 g/L H<sub>2</sub>O):            7.2 – 7.6

---

**10.     Stability and Reactivity**

Stability:                            Stable under recommended storage and handling conditions (refer to part 7 of this MSDS). Hygroscopic.

Reactivity:                          Avoid strong oxidising agents.

---

**11.     Toxicological Information**

Acute toxicity:                      Quantitative data on the toxicity of this product is not available.

Eye irritation:                        The degree of irritation is insufficient to warrant labelling as an irritant.

Skin irritation:                        The degree of irritation is insufficient to warrant labelling as an irritant.
