

---

**6.      Accidental Release Measures**

Personal precautions:              Wear disposable gloves, eye protection, dust mask and protective clothing.

Spill:                                      Sweep or vacuum material and place in a designated waste container. Ventilate and use a water rinse to clean the spill site after material pickup is complete.

---

**7.      Handling and Storage**

Handling:                                Avoid contact with eyes, skin and clothing. Prevent inhalation of dust.

Storage:                                 Keep container tightly closed. Store in a well ventilated area at 10 to 30<sup>0</sup>C.

---

**8.      Exposure Controls and Personal Protection**

Engineering controls :                Engineering methods to prevent control or exposure to dust are preferred. Methods include process or personnel enclosure, mechanical ventilation, and control of process conditions.

Protective measures > Hands:        Protective disposable gloves .

Protective measures > Eyes:         Chemical safety glasses or goggles.

Protective measures > Body:         Laboratory coat.

Protective measures > Inhalation:    Dust mask.

---

**9.      Physical and Chemical Properties**

Physical form:                         Powder.

Colour:                                    Straw.

pH (at 87.1 g/L H<sub>2</sub>O):                 5.2– 5.6

---

**10.     Stability and Reactivity**

Stability:                                Stable under recommended storage and handling conditions (refer to part 7 of this MSDS). Hygroscopic.

Reactivity:                                Avoid strong oxidising agents .

---

**11.     Toxicological Information**

Acute toxicity:                         Quantitative data on the toxicity of this product is not available.

Eye irritation:                         May cause irritation.

Skin irritation:                         May cause irritation.
